MUTOH EUROPE ANNOUNCES STRONG PRESENCE AT VISCOM GERMANY 2009

Oostende, BELGIUM. Large format inkjet printer & sign cutting plotter manufacturer Mutoh Europe nv will exhibit at the Viscom Germany exhibition (October 1st – 3rd, Düsseldorf, Germany) (**Hall 8A – booth F20**). Mutoh will expose and demonstrate its latest innovations in the field of large format digital printing & sign cutting, including the Mutoh Zephyr UV inkjet printer for roll-to-sheet, roll-to-roll and rigid board printing.

Viscom Germany will also be Mutoh Europe's launch platform for **several novelties**. Visitors will be able to discover a brand-new high-performance Mutoh sign cutting plotter family for home, office and professional users. Mutoh will also introduce several additions to its existing portfolio of large format printers for sublimation printing and direct textile printing.

Complementary to the Mutoh booth, Mutoh Deutschland GmbH – Mutoh Europe's sales office for the German speaking market – will join forces with its authorized distributor System GmbH and the Germany MCP partners (Mutoh Certified Partners). They will present the latest Mutoh inkjet technology, such as ValueJet, Blizzard and ValueJet Hybrid. The ValueJet Hybrid combi printer is ideally suited for print supply to customers demanding "green" output, i.e. prints on recyclable media. The printer uses non-petrochemical based inks, originating from corn. The Mutoh MCP booth (**Hall 8B – D20**) will also feature live wrap demonstrations on special objects and information sessions on Mutoh's award winning Intelligent Interweaving print technology.
